Portfolio: Abdulrahim

Professional Summary:

Dedicated Frontend Developer with +1 year of professional experience specializing in **Angular** and **React** frameworks. Passionate about creating responsive, user-friendly web applications with clean code. Experienced translating UI/UX designs into functional interfaces and collaborating with cross-functional teams to deliver high-quality products.

Experience:

Personal Projects

(MAR 2022 - Present)

- Before and during military service, learned Angular and built several projects using Angular, NGRX and more.

- Now learning Nodejs to become a Full-stack developer.

Frontend Developer

EBDAA Company: (MAR 2021 – SEP 2021)

- Gained experience in UI/UX, problem-solving, code review, and participated in coding challenges to enhance my skills. Worked on "**DIWAAN app**" implementing modifications and improvements.

- Worked as part of a team to design and develop the Diwan app project

- Collaborated with the team to deliver projects on time with high-quality standards, focusing on bug fixing, code optimization, and improving code quality.

- Gained experience in ReactJS, Tailwind CSS, Redux, Redux Toolkit and UI/UX using Adobe XD

Technical Skills:

- Angular | NGRX | NGX-Translate | jwt-decode | AG-Charts | Angular Material | NG-Bootstrap | Angular Icons
- ReactJS | Redux | Redux Toolkit | Next.js | React-i18next | React-Hook-Form | Daisy UI | React Suite | React Icons
- Git | GitHub | Postman | RESTful APIs | Adobe XD | UI/UX |HTML |CSS | JavaScript | TypeScript
- **Soft Skills**: Problem Solving | Adaptability | Time Management | Collaboration | Communication

---
